

Master Programmes

2013 KIC InnoEnergy

KIC InnoEnergy's 2013 Master Programmes Application Period is open!

KIC InnoEnergy, company created in 2010 and supported by the European Institute of Innovation and Technology (EIT), has a Master School in Sustainable Energy comprising seven international programmes, each one focused on a specific field:

- MSc Renewable Energy (RENE)
- MSc Programme Clean Coal Technologies
- MSc in Innovation in Nuclear Energy (EMINE)
- MSc Energy Technologies (ENTECH)
- MSc Smart Cities
- MSc Environomical Pathways for Sustainable Energy Systems (SELECT)
- MSc Smart Electrical Networks and Systems (SENSE)

We are currently looking for talented students who want to develop their careers in the sustainable energy field, and to become the future energy leaders either by working with sustainable energy companies, starting their own businesses or being innovators in the sector.

Scholarships are awarded to students so they can join one of our programmes.

What will you get from these studies?

- All the skills / competencies in innovation and entrepreneurship to face the world's energy challenges and to contribute to the transition to a low-carbon economy.
- The right place to bring your great ideas to the energy technology market.
- A very competitive CV, gaining experience in an international, interdisciplinary context.
- Involvement of the industry: you will work in close liaison with major business corporations, which will give you a unique industrial perspective.
- After graduating, you will have made contacts with your prospective employers.
- An international experience within a multicultural environment, which befits the global setting of the energy sector.
- The only MSc programmes accredited by the European Institute of Innovation and Technology (EIT) in the field of sustainable energy.

The 2013 application periods are now open!

Deadline for application round 1: February 28th, 2013

Deadline for application round 2: April 30th, 2013
