

## KIT Is First Choice of HR Managers in Three Subjects

**In the 2014 WirtschaftsWoche Ranking, KIT Reaches the First Place in Informatics, Business Engineering, and Mechanical Engineering and Ranks Second in Electrical Engineering**

**For the fifth time in succession, KIT is ranked top in Informatics by the WirtschaftsWoche magazine. In addition, KIT's Business and Mechanical Engineering programs reach the top position. Hence, the KIT is the only university in Germany that reaches the first place in three disciplines. The rankings are based on interviews of HR managers of large and medium-sized German companies.**

The interviews confirm that the best graduates in the subjects of informatics, business engineering, and mechanical engineering come from the KIT. These good results of the KIT in the ranking are complemented by the second place in electrical engineering. Already in this year's rankings of the Center for University Development (CHE) and EU-U-Multirank, the KIT was given very good ratings. For its teaching concept, the Department of Mechanical Engineering was awarded the prize "Best Machine House" by the Verband Deutscher Maschinen- und Anlagenbau e.V. (VDMA, German Engineering Association).

For the 2014 WirtschaftsWoche university ranking, 571 HR managers were interviewed by the Universum Communications consulting company and access KellyOCG. The results of the survey reflect the HR managers' opinions as to which universities and universities of applied sciences provide an education that is tailored best to the needs of companies, which criteria are important when selecting applicants, and which soft skills should be trained more.

The HR managers were also asked for criteria they considered to be most important when selecting an applicant. They answered that apart from the subject studied, the personality of the applicant, practical experience, and excellent knowledge of the English language play an important role. The type of degree – bachelor, master, diploma – and the examination results come in fourth and fifth place. A doctorate, other foreign languages, an MBA degree, and social activities parallel to the studies are less important. As regards the so-called soft skills, HR managers attach particular importance to solution-oriented think-
