With 9,300 employees and 25,000 students, Karlsruhe Institute of Technology (KIT) wants to become one of the most attractive places for science and studies in Europe. By yesterday's (February 18) parliamentary decision, the state of Baden-Württemberg and the Klaus Tschira Foundation again have agreed to support the KIT on its way to reaching this objective. Both partners will make major contributions: The state of Baden-Württemberg will make available a so far undeveloped area of nearly 20,000 m² that is located directly near the KIT Campus on Adenauerring in the Karlsruhe city center. The Tschira foundation will donate a building for direct use by KIT. Another two buildings are planned for close-to-research uses.

Karlsruhe Institute of Technology (KIT) pools its three core tasks of research, higher education, and innovation in a mission. With about 9,300 employees and 25,000 students, KIT is one of the big institutions of research and higher education in natural sciences and engineering in Europe.

KIT – The Research University in the Helmholtz Association

Since 2010, the KIT has been certified as a family-friendly university.
