Successful Studies in Karlsruhe: Yes, Its#Humboldt

Project Presentation and Public Panel Discussion about Academic Education and Learning with Minister of Science Bauer on April 25, 2018

“Yes, It’s #Humboldt” – under this heading, the Baden-Württemberg Minister of Science, Theresia Bauer, together with representatives of the Karlsruhe Institute of Technology (KIT) and Karlsruhe University of Applied Sciences (HsKA), will discuss the topics of “Good Academic Education” and “Successful Start of Studies” (in German). The public panel discussion and the accompanying poster presentation on projects on academic education projects will take place on April 25, 2018, 15 hrs, on Campus South of KIT (Atrium des Kollegiengebäudes Mathematik, Englerstraße 2, building 20.30). Representatives of the media are cordially invited.

[...]

Being “The Research University in the Helmholtz Association,” KIT creates and imparts knowledge for the society and the environment. It is the objective to make significant contributions to the global challenges in the fields of energy, mobility and information. For this, about 9,300 employees cooperate in a broad range of disciplines in natural sciences, engineering sciences, economics,
and the humanities and social sciences. KIT prepares its 26,000 students for responsible tasks in society, industry, and science by offering research-based study programs. Innovation efforts at KIT build a bridge between important scientific findings and their application for the benefit of society, economic prosperity, and the preservation of our natural basis of life.
