Karlsruhe Institute of Technology (KIT) and KIT Freundeskreis und Fördergesellschaft e.V. (Friends and Sponsors of KIT) grant the Heinrich Hertz guest professorship 2019 to Dr. Martin Brudermüller. The Chief Executive Officer and Chief Technology Officer (CTO) of BASF SE will speak about “Chemieindustrie im Umbruch” (Chemical industry under conditions of change) on October 31, 2019, 16.30 hrs, at the Johann-Gottfried-Tulla-Hörsaal on Campus South. In addition, the alumnus of KIT will hold a seminar for students.

[...]

The presentation and the seminar will be in German.

Being “The Research University in the Helmholtz Association,” KIT creates and imparts knowledge for the society and the environment. It is the objective to make significant contributions to the global challenges in the fields of energy, mobility and information.
For this, about 9,300 employees cooperate in a broad range of disciplines in natural sciences, engineering sciences, economics, and the humanities and social sciences. KIT prepares its 25,100 students for responsible tasks in society, industry, and science by offering research-based study programs. Innovation efforts at KIT build a bridge between important scientific findings and their application for the benefit of society, economic prosperity, and the preservation of our natural basis of life.

This year’s anniversary logo recalls the milestones reached by KIT and its long tradition in research, teaching, and innovation. On October 1, 2009, KIT was established by the merger of its two predecessor institutions: the Polytechnic School and later University of Karlsruhe was founded in 1825, the Nuclear Reactor Construction and Operation Company and later Karlsruhe Research Center in 1956.
