Study Information Day at KIT

In Seminars, Lectures, and Tours, KIT Provides Information on the 125 Study Programs and Training Opportunities

On November 20, 2019, pupils will obtain information on studies at KIT at the entrance hall of the Audimax, among others. (Photo: Eva Pailer, KIT)

Experiencing KIT for a day: Pupils will be given the opportunity to inform themselves about study programs and training opportunities at Karlsruhe Institute of Technology (KIT) on November 20, 2019, from 8.30 a.m. The institutes and central organizations of KIT will introduce themselves in around 150 events. In addition, employees will take the time to answer questions at information desks in the Audimax foyer (Straße am Forum 1, building 30.95).

[...]

Being “The Research University in the Helmholtz Association,“ KIT creates and imparts knowledge for the society and the environment. It is the objective to make significant contributions to the global challenges in the fields of energy, mobility and information. For this, about 9,300 employees cooperate in a broad range of disciplines in natural sciences, engineering sciences, economics, and the humanities and social sciences. KIT prepares its 25,100
students for responsible tasks in society, industry, and science by offering research-based study programs. Innovation efforts at KIT build a bridge between important scientific findings and their application for the benefit of society, economic prosperity, and the preservation of our natural basis of life.

This year's anniversary logo recalls the milestones reached by KIT and its long tradition in research, teaching, and innovation. On October 1, 2009, KIT was established by the merger of its two predecessor institutions: the Polytechnic School and later University of Karlsruhe was founded in 1825, the Nuclear Reactor Construction and Operation Company and later Karlsruhe Research Center in 1956.
