

Getting Ready for Studies

The MINT Kolleg of KIT Offers Courses in Mathematics, Informatics, Physics, and Chemistry in the Summer Term for Students who Have just Taken the Final School Examination – Registration Is Possible from now on

Secondary school graduates can prepare for their studies by joining courses of the MINT Kolleg. (Photo: Harry Marx)

Secondary school graduates who wish to study mathematics, informatics, natural sciences, and engineering can use the time between school and university purposefully and join courses of the MINT Kolleg of the Karlsruhe Institute of Technology (KIT) as a guest listener in the summer term already. The courses in mathematics, informatics, physics, and chemistry impart basic knowledge and prepare students for the demands in their studies. The registration is possible from now on.
