Various aspects of sustainable bioeconomy and in particular of the use of biomass as a raw material and for energy production will be in the focus of the 7<sup>th</sup> Colloquium “Sustainable BioEconomy” on Monday, December 09, 2013, on KIT Campus North. Representatives of research and industry will speak about the complete chain of added values of biomass, from cultivation to utilization. This year, the Colloquium will concentrate on biomass-based intermediate products and large-scale utilization of biomass.
