

2015 Mechanical Engineering Day at KIT: Engineers in Industry and Science

Fair with Presentations on Research and Professions – Department Colloquium

At the fair, the KIT mechanical engineering institutes and their industry partners will present current research projects. (Photo: Department of Mechanical Engineering of KIT)

The 2015 Mechanical Engineering Day on Friday, July 10, 10 hrs, at the Karlsruhe Institute of Technology (KIT) will provide fascinating insights into research, presentations of renowned representatives of industry, and opportunities for students, graduates, and industry partners to establish contacts. Under the heading of “Engineers in Industry and Science”, the trade fair and parallel presentations (in German) will be organized at the Audimax (KIT Campus South). During the Department Colloquium (in German) from 16 hrs, the invited lecture will be given by Dr. Michael Willmann, Senior Manager Advanced Development, Measurement Technology, and Damage Analysis of L’Orange GmbH. Representatives of the media and the interested public are cordially invited to attend.

Karlsruhe Institute of Technology (KIT) is a public corporation pursuing the tasks of a Baden-Wuerttemberg state university and of a national research center of the Helmholtz Association. The KIT mission combines the three core tasks of research, higher education, and innovation. With about 9,400 employees and 24,500 students, KIT is one of the big institutions of research and higher education in natural sciences and engineering in Europe.

Since 2010, the KIT has been certified as a family-friendly university.
