

2017 Girls' Day: Studies and Vocational Training at KIT

Information Day with 40 Workshops, Guided Tours, and Presentations – Registrations Are Still Possible

Studies or vocational training: On the Girls' Day, KIT will inform about job perspectives. (Photo: Tanja Meißner, KIT)

In the course of the 2017 Girls' Day on Tuesday, April 27, at Karlsruhe Institute of Technology (KIT), girls will be informed about study and vocational training programs. Pupils from the fifth year of all types of schools will then have the opportunity to look into fields of work and jobs in mathematics, computer science, natural sciences, and engineering. KIT scientists on Campus North and Campus South will provide information on job perspectives in more than 40 workshops, guided tours, and presentations.

For further information (in German) please click www.girls-day.de

Karlsruhe Institute of Technology (KIT) pools its three core tasks of research, higher education, and innovation in a mission. With about 9,300 employees and 25,000 students, KIT is one of the big institutions of research and higher education in natural sciences and engineering in Europe.
