

Knowledge Buffet: “All You Can Eat – And Learn“

Running Sushi Buffet, Scientific Presentations, and “Knowledge Snacks“ to Take Away –
Contribution to the 2016*17 Science Year of the Federal Ministry of Research

Fish and knowledge will be served by KIT's knowledge buffet on the occasion of the Science Year – Seas and Oceans. (Photo: Philipp Schrögel)

Fish is both healthy and delicious, but for many consumers this is not enough. They want to know whether the fish comes from native seas or from overseas and whether it was caught with sustainable methods. Or was it produced by aqua farming and is it contaminated with antibiotics? Which role can algae play in tomorrow's food supply? Answers to these questions will be given to guests of the “Knowledge Buffet” organized by Karlsruhe Institute of Technology (KIT) on May 31, 2017, for lunch and dinner. The venue will be the “Asia Dynasty” restaurant in the Karlsruhe city center.

[...]

Karlsruhe Institute of Technology (KIT) pools its three core tasks of research, higher education, and innovation in a mission. With about 9,300 employees and 25,000 students, KIT is one of the big institutions of research and higher education in natural sciences and engineering in Europe.
