

KIT at the City Hall: Technologies for the Energy Transition

KIT Energy Center Presents Research to the Public – Topics: Energy Storage and Solar Energy from Plastic Foils

Solar energy and future storage systems: The next event “KIT at the City Hall” will cover energy research at KIT. (Photo: Tanja Meißner, KIT)

How can energy-efficient applications be supported, which technologies are needed, and how can we accomplish the energy transition sustainably and thoroughly? On Wednesday, January 31, 2018, 6.30 p.m., scientists of the KIT Energy Center will present new technologies for future energy supply at the city call in Karlsruhe.
