

## Girls' Day 2019: Studies and Training at KIT

**Information Day for Girls from Class 5 with 40 Workshops, Guided Tours, and Presentations – Registrations Are Welcome!**

*Studies or vocational training: on the Girls' Day, KIT will inform about job perspectives and technologies, such as the electric car. (Photo: Lydia Albrecht, KIT)*

**Charging batteries, planning roads, programming tablets: STEM subjects determine our everyday life. Girls will be informed about the corresponding studies and vocational training programs on the Girls' Day 2019 on Thursday, March 28, 2019 at Karlsruhe Institute of Technology (KIT). Girls from the fifth year of all types of schools will then have the opportunity to look into fields of work and jobs in mathematics, computer science, natural sciences, and engineering. KIT scientists on Campus North and Campus South will inform about job perspectives in more than 40 workshops, guided tours, and presentations.**

**Being “The Research University in the Helmholtz Association,” KIT creates and imparts knowledge for the society and the environment. It is the objective to make significant contributions to the global challenges in the fields of energy, mobility and information. For this, about 9,300 employees cooperate in a broad range of disciplines in natural sciences, engineering sciences, economics, and the humanities and social sciences. KIT prepares its 25,100 students for responsible tasks in society, industry, and science by offering research-based study programs. Innovation efforts at KIT build a bridge between important scientific findings and their application for the benefit of society, economic prosperity, and the preservation of our natural basis of life.**

The photo in the best quality available to us may be downloaded under [www.kit.edu](http://www.kit.edu) or requested by mail to [presse@kit.edu](mailto:presse@kit.edu) or phone +49 721 608-21105. The photo may be used in the context given above exclusively.

This year’s **anniversary logo** recalls the milestones reached by KIT and its long tradition in research, teaching, and innovation. On October 1, 2009, KIT was established by the merger of its two predecessor institutions: the Polytechnic School and later University of Karlsruhe was founded in 1825, the Nuclear Reactor Construction and Operation Company and later Karlsruhe Research Center in 1956.
