

Courage Is to Do It All the Same: an Evening with Titus Dittmann

The KIT Founders Forge Has Invited the Entrepreneur, Teacher, and Out-of-the-box Thinker Titus Dittmann to Karlsruhe – Live Event on October 02, 2019 at the Audimax of KIT

From teacher to entrepreneur: Titus Dittmann. The skateboard pioneer founded numerous startups and also managed serious business crises. (Photo: Rieke Penninger)

Titus Dittmann is skateboard pioneer, founder of a number of startups, philanthropist, and a passionate hoodie wearer. The KIT Founders Forge has now invited the entrepreneur to speak to the Karlsruhe startup scene at 18.00 hrs on October 02, 2019. In his keynote, Dittmann will provide insight into his career that started as school teacher. For attending the cost-free event, register at www.kit.edu/gruenderschmiede. Representatives of the media are asked to register by electronic mail to presse@kit.edu.

[...]

The event will take place in the German language.

Being “The Research University in the Helmholtz Association,” KIT creates and imparts knowledge for the society and the environment. It is the objective to make significant contributions to the global challenges in the fields of energy, mobility and information.

For this, about 9,300 employees cooperate in a broad range of disciplines in natural sciences, engineering sciences, economics, and the humanities and social sciences. KIT prepares its 25,100 students for responsible tasks in society, industry, and science by offering research-based study programs. Innovation efforts at KIT build a bridge between important scientific findings and their application for the benefit of society, economic prosperity, and the preservation of our natural basis of life.

This year's **anniversary logo** recalls the milestones reached by KIT and its long tradition in research, teaching, and innovation. On October 1, 2009, KIT was established by the merger of its two predecessor institutions: the Polytechnic School and later University of Karlsruhe was founded in 1825, the Nuclear Reactor Construction and Operation Company and later Karlsruhe Research Center in 1956.
